Bushkill Amusement Park

Easton, PA

Volunteer

- Rehabilitation to neglected and flood-damaged amusement rides. [April - August 2005]
- Find the most productive use for the efforts of well over 100 volunteers throughout that time period.
- Procurement of all necessary parts and supplies.

2003-2004 **CITY of NEW YORK (Department of Buildings)**

New York, NY

Inspection Supervisor

- Perform amusement ride inspections as per RS-18 city code and the ASTM F-24. These inspections evaluated all aspects of amusement ride safety including their fundamental design, any modifications that may have been made, repairs, maintenance, testing, operation, compliance with the manufacturer's requirements, recommendations and safety bulletins.
- The broad responsibility of an amusement ride inspector is to be able to approach any amusement ride or device — whether for the first time or the hundredth time — and perform a complete and comprehensive inspection without overlooking any potential safety hazards.

- Provide training and materials for city inspectors on proper amusement ride inspection requirements and the methodology needed to be able to inspect any ride properly without prior training for each separate type of machine.
- Oversee all amusement ride inspections in all five boroughs: Manhattan, Queens, Brooklyn, the Bronx and Staten Island.
- Organize joint NAARSO training sessions between New Jersey and NYC ride inspectors.
- Create and assemble manuals and reference materials for NYC ride inspectors.
- Elevator/escalator inspections as per RS-18 city code/ ASME A17.1.
- Amusement ride & elevator accident investigations.
- Create new forms, certificates and methodology of record keeping.
- NYC code review consultant.

1997-2000 **STATE of MARYLAND** (Division of Labor & Industry)
